Dear sir,

Thank you very much of your letter and I received on May 25, 1986. Ofcourse very happy, because each reports useful for me. After reading your letter and confirmed with logbook is correct (right). If you want to know about RRI Biak as followed:

Frequencies : -41,06 m or 6207 kHz with power 1 Kw

-55,05 m or 5455 kHz with power 0,5Kw

-287,36m or 1046 kHz with power 10Kw

Programme : everyday on air are 20 hours from 05.00-01.00 eastern of Indonesia Time.

Let, little introduce of my self.

I am 36 years old, was born in Bandung, West Java. Graduated of Journalism Academy Jakarta on 1973 and work began in RRI Biak since 1974 untill today, as redactur news and journalist. Since 1978 besides as the head of broadcasting section also as boradcaster. My hobbies : sports, stamps collection, music, correspondence.

Biak is little city in Biak island include Irian Jaya province, rain always fall everyday although Indonesia has two season. So exepted for Irian Jaya which has snow forever in Jayawijaya mountains. Specific animals are bird as cendrawasih, king kakatua. Dangerous snake as snake four leg because a snake has leg. Tourist object in Biak many places battle ex war world II as cape Japan, sub marine tank, also in Jayapura Mc Arthur monument, Sentani Lake, carve of wood from Asmat.

And how about you ? I like and interest if heard your country. Please give my regard for your parents.

Excuse me because my English not good. I hope you readiness to reply my letter. ~~Good bye and see you again.~~ Thank you.

My faithfully

Muchtar Yushaputera BA
