Dear Sir,

It was a very great pleasure for me to receive your report of reception by tape recording. I can listen to your recording, very - interest. The announcer's name is Albert Hutabarat, three years - younger than you. I must thank for your report.

Padang is a city of 200.000 inhabitants near the sea shore is the capital of West Sumatera Province. Studio Radio Republic of Indonesia (R.R.I) Padang located in the centre of the city. West Sumatera is known as Minangkabau with matrilineal system. Minangkabau is one of a tourist object in Indonesia. In 1974, PATA'S member Conference in Jakarta (the capital of Indonesia), will be coming to West Sumatera too. Padang have 4 International Hotels - consist of suitable, tourist and economic rooms. Taking airport - is 9 KM from Padang but Teluk Bayur the natural harbour only 6 KM far is.

Excuse me, R.R.I. Padang hasn't QSL-card. Instead of it I would like to send you (enclosed) a post-card of Studio R.R.I. Padang - (front see). I hope you will be able to enjoy it.

Oh, I had tried to monitor radio Baghdad on 3963 Kcs but I can't have you ever heard R.R.I. Surabaya on 3975 Kcs On 75,47 mtr. It is a 10 KW transmission, same as Padang's.

Last but not least I pray for your good health and anxious to hear more from you.

With best regard from Padang

PALEMBANG, October 13th 19.66.

To
Mr. William S. Sparks ✓
Attorney at Law
901 Hearst Building
San Francisco
CALIFORNIA.

Dear Sir,

I wish to inform you, that we received your letter dated September 27, 1966 on October 6, 1966.

I would like to tell you, that your reception report, which noted down all the programmes broadcasted on September 27, 1966 at 13:56 GMT were exactly correct. It was at 08:56 in our local time, which we usually call "West Indonesian Standard Time."

As a matter of fact, it was the first letter ever received from the U.S.A. so that we paid a special attention to it.

We use a 10 Kilowatt Gates Transmitter, serving a Regional area of South Sumatera. It is important to mention here, that on September 26, 1966, our Antenne system was changed from a Deltameter into a Dipole-system, which is a three wire half wave folded dipole, 0,3 wavelength, height ± 19 meters.

In this regard you were very lucky to hear our signals on 61,79 meter band or 4855 Kc/sec. Especially the reception was sufficient enough, which you noted down at SINFO 34433.

Probably you would like to know the announcer on duty at that time. He was Mr. Herman, age 23, still student at Sriwijaya University. Another announcer was Ratna Willis, a lady announcer, B.A. in English.

I am sure, that she is looking forward to go abroad to enrich her experiences in Radio Broadcasting as well as to know the American way of life.

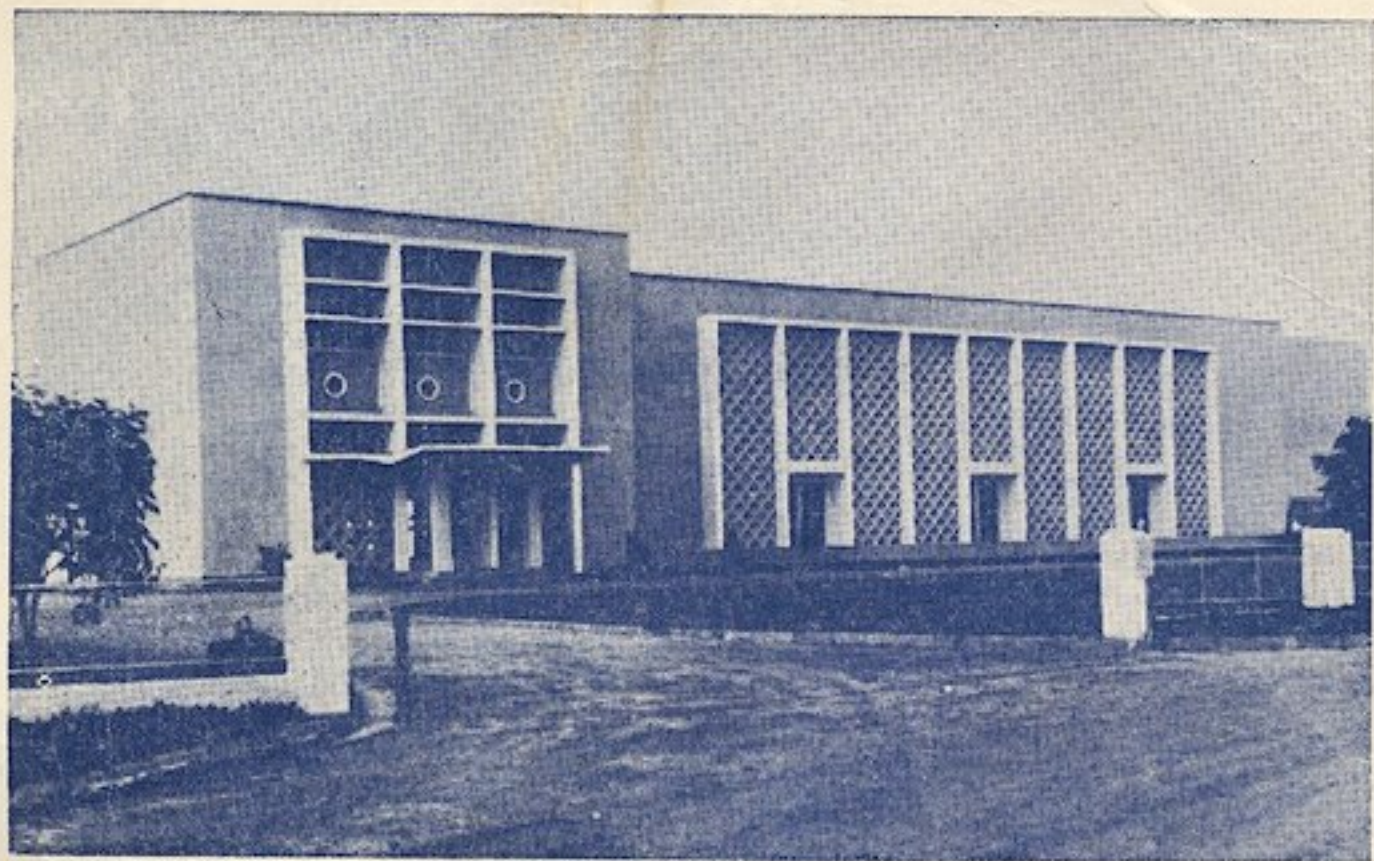

If you want to have connection with both of them, please write a letter addressed to "Radio Republic of Indonesia, Palembang", South Sumatera, Indonesia.

I enclose herewith a photograph of our studio building, that might be of any interest to you. Would you please ~~send~~ ^{send} us your photo. And we would be very happy, if you could send us some new books about Radio Broadcasting and Television, and Music.

We are very grateful indeed and thanks very much for your sympathetic letter.

Your sincerely

M.N. Supomo
(M.N. Supomo)
Director.

Studio Baru R.R.I. Palembang.

RUMAH ASLI PALEMBANG

TRADITIONAL HOUSES, PALEMBANG

Palembang is the capital of the Province of South Sumatera, the oil city, the main commercial centre in Southern Sumatera, Indonesia. The city was the capital of the old, famous Kingdom of Crivijaya.

Picture shows the panoramic view of a village in the lower parts of the city, most of the houses are built on piles.

Remarks : - Thanks for the report.
- Greetings from Palembang, Indonesia.

Dengan hormat,

Surat Sdr tgl 21 May 1974 sudah saya terima dan diucapkan banyak terima kasih atas perhatian Sdr terhadap siaran kami. Saya mohon ma'af, karena saya terlambat membalas laporan Sdr, semoga Sdr tidak akan kecewa karenanya.

Sesungguhnya, apa yg sdr laporkan itu, memang benar. Tetapi perlu sdr ketahui, bahwa kota Pekanbaru tidak terletak didaerah Sumatera Barat, akan tetapi didaerah riaw dan merupakan ibu kota propinsi Riaw. Dipulau Sumatera ini terdapat 10 buah stasion RRI, yaitu Banda Aceh di Aceh, Medan Sumatera Utara, Sibolga - Tapanuli Sumatera Utara, Padang Sumatera Barat, Bukittinggi Sumatera Barat, Pekanbaru - Riaw, Tanjungpinang - Riaw, Jambi di Jambi, Palembang Sumatera Selatan dan Tanjungkarang - Lampung.

Programma siaran RRI Pekanbaru, merupakan program regional yg di tujukan khusus untuk daerah propinsi Riaw.

Bersama surat ini, saya sertakan daftar acara siaran dari 4 buah stasion RRI, yaitu Padang, Bukittinggi, Pekanbaru dan Tanjungpinang.

Semoga Sdr menerimanya dgn baik.

Sekian dan sekali lagi terima kasih atas perhatian Sdr.

Hormat dari kami
