Lexington, Mass. 02173
U.S.A.

Dear Mr. Berg:

This letter confirms your reception report of 31 December 1996 (2339-2400 UTC) on 7185 KHz.

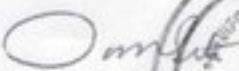

It is a pleasure to receive your reception report, the detail combined with the audio tape is exceptional. My staff truly enjoyed listening to the tape since they rarely have the opportunity to hear "their" station as received in the US.

Personally, I am excited with the quality of this reception report, knowing that the US was not the target area.

The US dollar that you sent is being returned; it is with pleasure that we respond to your report.

Mr. Berg, again, thank you very much for your interest in HF communications and the reception report. Should you ever be in the area please let us know. Morocco Relay Station is one of the newest and most modern in the IBB network and worthy of a visit.

Our very best Regards.

David M. Sites
Station Manager
