NOTICE TO THE LISTENER

During the past few months, while war rages and history is being made in Europe, changes in short wave station call letters, frequencies, and schedules have been frequent. The inside short wave log has been carefully checked and rechecked for accuracy, and is correct at time of issuance. However changes may be made at any time without notice. In most countries invaded by Germany, short wave stations have either been silenced or taken over by German authorities and given German call-letters.

Foreign news broadcasts in English, as listed on the bottom of the inside short wave log are likewise subject to change without notice. Before tuning for an overseas news broadcast, consult the short wave station log to determine whether reception at that time of day is good, poor, or inaudible.
