

# SHORT-WAVE STATION LIST

RCA Victor developments have resulted in a tremendous improvement in short-wave reception. Due to a variety of natural causes, and frequent changes in station schedules, short-wave programs cannot be tuned in with the same regularity as standard broadcasts. Atmospheric changes, location of storms, the season of the year, time of day and night, and number of sun spots all affect the strength and clarity of short-wave programs.

If you are unable to get the program you want, do not blame your radio; try the other short-wave bands for stations that may be "coming through." Always tune slowly.

Thousands of tiny experimental stations throughout the world operated by "amateurs," offer opportunities for tuning-in real short-wave thrills.

Satisfactory short-wave reception is not possible unless you have a good antenna system.

## LISTA DE ESTACIONES EMISORAS DE ONDA CORTA

Los adelantos introducidos por la RCA Victor han traído como resultado una extraordinaria mejora en la recepción de onda corta. Debido a una variedad de causas naturales, y a los frecuentes cambios en los horarios de estaciones, no es posible sintonizar los programas de onda corta con la misma regularidad que los de onda larga. Los cambios atmosféricos, la ubicación de las tempestades, la temporada del año, la hora del día y la noche y el número de manchas solares, son todos factores que afectan la potencia y claridad de los programas de onda corta.

Si no puede Ud. captar el programa que desea, no eche la culpa a su aparato de radio. Pruebe las

otras bandas de onda corta a ver si puede captar otras estaciones. Sintonice siempre lentamente.

No es posible obtener una buena recepción de onda corta a menos que se disponga de una buena antena.

Miles de diminutas estaciones experimentales por todo el mundo, manejadas por "aficionados" ofrecen muy buenas oportunidades para gozar de los deleites que brinda la sintonización de onda corta. Estas estaciones están agrupadas en las siguientes bandas o gamas: 1715 a 2000 KCS (banda de 160 metros); 3500 a 4000 KCS (banda de 75 metros); 7000 a 7300 KCS (banda de 40 metros); 14000 a 14400 KCS (banda de 20 metros.)

## CLASSEMENT RADIOPHONIQUE DES STATIONS ONDES COURTES

Les recherches techniques ont permis d'améliorer énormément la réception sur ondes courtes. Un grand nombre de causes naturelles et des changements fréquents d'horaire d'émission ne permettent pas d'accorder les programmes sur ondes courtes aussi facilement et régulièrement que ceux diffusés sur petites ondes. Le temps, les conditions atmosphériques, le lieu des orages, la saison, le jour, la nuit, le nombre des taches solaires affectent l'intensité et la clarté des programmes sur ondes courtes.

Si vous ne pouvez pas obtenir le programme que vous désirez, ne vous en prenez pas à votre poste récepteur, essayez une autre bande d'ondes courtes

afin de capter les stations qui peuvent être reçues à ce moment. Il faut toujours accorder le poste très lentement.

Dans tous les coins du Monde, des milliers de petites stations d'expérimentation dirigées par des "amateurs" vous offrent un choix de programmes variés et captivants. Ces stations sont comprises dans les gammes suivantes: 1715 à 2000 KCS (bande de 160 mètres), 3500 à 4000 KCS (bande de 75 mètres), 7000 à 7300 KCS (bande de 40 mètres), 14000 à 14400 KCS (bande de 20 mètres).

Il n'est pas possible d'obtenir une réception satisfaisante sur ondes courtes si l'antenne n'est pas bien installée.

GUIDE PERSONNEL  
Station, Position des  
aiguilles, Heure, etc.

#### DAYLIGHT SAVING TIME

\*Stations will start their programs one hour later and sign-off one hour later than the hours listed in this Short-Wave List when change from Daylight Saving back to Standard Time is made, for example \*W8XK on 21.54, listed at present as operating from 5:30 to 8 a.m., will operate from 6:30 to 9 a.m. EST, after end of Daylight Saving Time.

#### LA HORA DE VERANO

\*Las estaciones comenzarán sus programas una hora más tarde y terminarán igualmente una hora más tarde que las indicadas en esta Lista de Ondas Cortas cuando la Hora de Verano (Daylight Saving Time) se cambie otra vez a la Hora Normal (Standard Time). Por ejemplo, \*W8XK en 21.54, que ahora está indicada como funcionando desde las 5:30 hasta las 8. A.M., funcionará desde las 6:30 hasta las 9 A.M. EST (Hora Normal del Este), después de terminada la Hora de Verano.

#### L'HEURE DE PRINTEMPS

\*Les stations commenceront leurs programmes une heure plus tard et finiront une heure plus tard que les heures indiquées dans cette liste des Ondes-Courtes lorsque l'Heure de Printemps (Daylight Saving Time) sera changée de nouveau à l'Heure Normale (Standard Time). Par exemple, \*W8XK à 21.54, indiquée à présent ayant lieu de 5:30 à huit heures A.M., aura lieu désormais de 6:30 à 9 heures A.M., EST (Heure Normale de l'Est), après que se terminera l'Heure de Printemps.
