

WHERE TO FIND THEM

ENGLISH LANGUAGE SHORT-WAVE BROADCAST STATIONS BEST HEARD IN EASTERN NORTH AMERICA

Readers in the eastern part of the United States and Canada will find the following list of stations helpful in tuning the short-wave broadcast bands. The left-hand column lists the hour in Eastern Standard Time for broadcasts in English only; in the middle column, the city and country from which the broadcasts originate are listed with the name the station uses for identification in parentheses; and on the right are the frequencies and call letters for stations using them during their broadcasts. When an asterisk appears before the name of the city, it indicates transmissions specifically beamed to North America; generally these will be the best-heard stations, though the others are often very well heard.

TIME (EST)	CITY, COUNTRY (NAME)	FREQUENCIES (kc.)
4:45-5:45 a.m.	Georgetown, British Guiana (<i>Radio Demerara</i>)	5980
