This bulletin marks the success of NASA!! Our veteran members will agree that we have come a long way since we issued our first one-page bulletin, two years ago. In this respect we feel that NASA is NOW worthy and deserving of the respect a really established club deserves!

NASA is now almost entirely in your hands, what it is from now on, you make it, and remember, you only get out of something, what you put into it!!

It is with pleasure we welcome the following new members to NASA. They join at a time when things are as they should be for a established club.

53. William Hutchinson, Baltimore 34, Maryland **
59. Donald E. Erickson, Sunnymead, California
60. Richard Jennings, Beaver Falls, Penna. **

Dear Members,

Just before press time this month (minutes before), our typewriter here at headquarters broke down. For this reason, the bulletin will be late, and we will not be able to include all the information usually included in this part of the bulletin. Next month all information not mentioned here, will be published.

New members-

NOVEMBER

New members- We are happy to announce that NASA is now beginning to reach other parts of the world. Proof of this is the fact we now have our first overseas member in the person of Detlef Schuler, GDR/Germany. This OM is a serious swl and he is a 100% cardswapper. More important, he is a believer in promoting a better and more friendly relationship between swls of the world. If for no other reason then, this would be suffice to voice our pleasure in having him with us in NASA. In months to come, I am sure you will see reports from this new member and no doubt the example he sets will prove that no matter where in this world you might live, all it takes to better our hobby, is friendship and support of your club. Welcome then Detlef and may your stay with us be long and worthy. We are pleased to have you with us! # 75

Bill Zielinski- 10 Maple Ave., Lancaster, New York. NASA's new technical editor!! Bill has been active in ham and swl radio since November of 1961. Recently he attended Camp Albert Butler, and while there he studied radio-electronics theory, code, FCC rules and regulations, ect. He also holds the WPE call of WPE2GRD. Bill invites all NASA'ers to write him concerning technical problems as per their equipment! We are glad to have you with us Bill, --only hope we can measure up to your standards! # 76

Neal D. Bates- WPE8EPN, who presides at 74 Hartshorn Dr., in Painesville, Ohio, is mainly a SWBC man. Neal does his listening with a Hallicrafter S-120, and a S-94, all hitched up to a SWL-7 and long wire. His other interests are cardswapping (100% swapper), model building (what kind of models Neal?? Hi Hi), CB radio, and the theater. Neal is employed as a newspaper pressman. # 77

Thomas P. Bispham- WPE3CL/K3PWL, 3 Drecott Lane, Haverford, Penna. Tom here, is one of the most serious swls we have ever seen, which any one letter from him would show. Tom is prepared to help any prospective swl or ham, so bear this in mind if you have such plans! Welcome to the club Tom, we hope to be hearing from you and all the new members through the bulletin! # 78

NO. 3

New members- We find ourselves with a bumper crop of new members, mostly through the efforts of Bill Eddings and a few others. A Santa Claus size welcome to the following new members....

#79, Rheel P. Lavoie, Ansonville, Ontario, Canada, (through Bill Eddings), VE3PEIQH. A member of CDXC, ASWLC, and now NASA. Rheel listens with a Lafayette HE-30 on the SWBC and ham bands. He also speaks French, so anyone needing report forms in French may wish to write him.

#80, Bill Harris, South Wales, U.K. (through Bill Eddings). Our second overseas member! Bill's receiver is a Hallicrafter S-20, which is usually tuned to SWBC and ham. Bill is a card swapper, and a tapesponder, so if you need a South Wales swap, here's your chance!

#81, Errol Urbelis, Long Island, N.Y. (through R. Roll) WPE2AN. #89, Ann McKenna, Huntington Station, N.Y. (through Errol Urbelis) WPE2NK. Again this month another "first" honors NASA with its presence! Recently Errol Urbelis of Greenlawn, N.Y. joined NASA, and shortly there-after interested his future YL in membership, so is our first XYL member, Miss Ann McKenna, WPE2NK, Huntington Station, N.Y.

#82, Charles R. Rader, Missouri Valley College, Marshall Missouri, (through Tom Mann) WPE2IAU/p. Chuck is attending Missouri Valley College at present. So that leaves a limited amount of time for DXing. Hope to be hearing from you Chuck, during the summer months!

#83, John M. Diekey, Westchester, Penna. (through Bill Eddings) John is strictly a SWBC man, which his Zenith trans-oceanic does FB at! He also enjoys cardswapping. John is also active in the ASWLC and the DXU.

#84, Jim Creek, House, New Mexico, (through Bill Eddings), WPE5BOC. Jim, our first member from New Mexico, listens with a Knight Span Master, and a Heath GR-91, which he has connected up to an array of long wire antennas. Jim doesn't tapespond, but welcomes all cardswaps! Other interests are map collecting and stamps. (Perhaps some of the members could help Jim out with his map collecting!?)

#85, Laveyd Hunev, Detroit, Michigan, (through R. Roll) WPE8AD. Laveyd is NASA's new ham-band editor, and a very hot DXer in his field!! You'll find
cont'd

his first section in this months bulletin, turn to it, I'll think like what you find. It goes without saying, that Lavoyd will appreciate your support!

#86, Leonard Lee, North Wales, Great Britain, (through Bill Eddings). Leonard is now our third overseas member!! His receiver is a R107, with which a whip and ground plane work well. Len enjoys card swapping, tape swapping, post card swapping, and personal picture swapping, could it be said that we have a swapper with us? Hi.

#87, Harry Smith, Binghamton, N.Y. (through Mike Wood), WPE2HKE. Harrys receiver, is also a Knight Span Master, connected to a west east running 70' long wire. Other interests of Harrys are Tennis, Piabo, and card swapping.

#88, Richard Few, Rockville, Maryland, (through Bill Eddings), WPE3DVQ. Richard seems to be somewhat of an electronics experimenter, as he uses a homebrew regen receiver! Along with his doublet and Lafayette KT-200, he is well set for the DX season. Rich has plans for tapesponding, so any other of our younger members may want to keep this in mind.

January 1963

NEW MEMBERS

#90, John Ball, Arcadia, California, WEE6DVT, (through R. Roll), who is 27 years old, says he is not a 100% card swapper!!--he's a 200% swapper!!! John's equipment includes a Zei-nith Trans-Oceanic with a 200 foot long wire, and a SWL-7. He speaks several languages, and attends U.C.L.A., where he is studying to be an electrical technician!

#91 Philip Flickinger, Rockwood, Penna., WPE3DWS, (through R. Roll) who is also 27, listens with a Heath GR-91, and uses a 75 foot long wire as an antenna. In March of '63, Phil will become a 100% cardswapper. Other interests of Phils are automobiles and ponies.

#92, Paul Gough, West Newton, Mass., WPE1ASX/KLYJC, (through John Arthur), Paul is a senior in high school at present, but has plans to attend St. Anselms College in Manchester, next school year. His receiving equipment seems to be strictly Hallicrafters, an S-38E, and an S-108. His antennas are two dipoles and a 100' long wire. Other interests are science, and girls. (Nice combination Paul!! Hi.)

NEW MEMBERS—We welcome the following OMs as new members to the NASA. We hope they will always keep in mind our motto of 'UNITY and FRIENDSHIP', as the only way to harmony between all!

Notice!!

TO ALL MEMBERS

Notice!!

Because of the fact Rick Roll resigned as bulletin publisher/printer, effective mid-July last, there was no edition of Frendx for said month. In addition, due the fact no arrangements could be made, mainly for the reason I have been working (vocationally a seven day week this summer, there was no August edition. Therefore, please be here informed that all members will get a two month extended membership which will allow for the two aforementioned bulletins not received.

At this time I would like to ask all members to contribute to a "mimeo fund" so that we can purchase our own machine for future editions of Frendx. I personally will get the ball rolling by donating ten dollars. If each member will try to add one dollar, we can/will be able to get a most worthy mimeo and the club will not have to rely on any one individual as in the past. All bulletins can then be printed and mailed from hdq. (this will expedite matters in many ways!) It is requested that you send any/all contributions to hdq as soon as possible. Thank you!

This edition of Frendx has been printed by NASA member-FSDXC official, Don Erickson; He volunteered his services and use of his mimeograph. (NASA will reimburse him for expenses incurred for supplies and postage.) We are indeed grateful to Don and FSDXC for the splendid showing of "Unity and Friendship".

!!!GREETINGS*** NEW MEMBERS ***GREETINGS!!!

November 1963

166 Kenneth Shafer-WPE9DCK, Box 198, Whitestown, Indiana-46075. Ken is 15, a freshman in highschool, prefers the SWBC bands for DXing, uses a Lafayette HE-30 as rx and a 60' doublet plus a 50' longwire for antennae. He joined via Dick Few.

167 Ronald Gober-WPE3AWQ, 2221 Tatnall Street, Wilmington, Delaware-19802. Twentytwo years old and just discharged from the service after a four year(?) tour of duty. Ron also prefers to DX the SWBC bands, but does some on MW also. He tunes with an NC-60 and a Spanmaster, uses a 60' longwire, built-in antenna and rabbit ears. He came to NASA ranks via WPE3BWL and NNRC.

168 William M. Jones-WPE9ECS, 737 Main Street, Aurora, Illinois. Bill works for the U.S. Postoffice Dept., is in his 50's and digs DX on the hambands. An HQ-180 and multi-band homebrew converter into an RCA 67VI, plus a Bud crystal calibrator make up his gear; Antennae are a HyGain 14AVS vertical and HyGain multiband trapped doublet. He joined via Lavoyd Kuney.

169 Jonathan F. Gentry-G9987, Gailey Vicarage, Strafford, England. Jon is 21 and is active mainly on the 80 and 20 meter hambands when SWLing/DXing. He is also a member of ISWL and RSGB, joining NASA via Walt Smart.

WELCOME!!! NEW MEMBERS

170 Margaret A. Fairless, 308 Valleyscent Avenue, Scotch Plains, New Jersey 07076. Special greetings always go out to the YL/XYL's who join us; Marge happens to be an XYL. She is a housewife, aged 26 and is new to the SWL ranks. Her DXing preference is the SWBC bands. She uses a Zenith TransOceanic as her rx which employs a whip ant. Marge heard about NASA via E.I.

171 Vincent A. Peri, Jr., 115-06 120th Street, South Ozone Park, New York. Vince is sixteen, is interested in electronics, music and stamps; He speaks/writes Spanish es English. His shack equipment consists of a Lafayette HE-30, a Kuhn 353A-UHF rx and a tape recorder. His antenna is a 90' longwire 35' high. He came to us via E.I.

172 Fernando S. Fernandés/WPE2FSY, Webb Circle, Monroe, Connecticut 06468. Aged 28, Ferdie is a college man and is currently studying radio/TV engineering. He handles Spanish and Portuguese as well as English. Gear at his QTH is a Hallicrafters S-120, HeathKit Mohawk, Webcor taperecorder. His antenna is a 170' folded dipole made from 300 ohm twinlead wire. He too came to NASA via E.I.

173 Louie A. Stober/WPE700, 7305 S.W. Beveland Road, Tigard, Oregon 97223. This OM, a "Northwesterner" of 27, is a technical machinist. DXing the SWBC and the HamBands, he also is interested in amateur astronomy, stamps and coins. Equipment includes a National NC-190, Knight S-R, GMC mobile rx, Sandy recorder, Silvertone FM rx and a Sylvania TV set. His lists his antenna farm as: 2 Mosley SWL-7, 5 meter verticle, 96" whip. Louie also joined via E.I.

174 Tim C. Hartman/WPE6BJS, 1612 Addison Drive, St. Louis, Missouri 63137. A junior in highschool at 16; Tim is also a member of NRC and OI'DY. He digs music as well as DXing the SWBC and MW bands. A National NC-60, a Q multiplier and a 50' longwire ant 10' high make up his equipment data. As above new members, he too joined via E.I.

175 R. David Kilborn/WPE9ABH, 2375 West Forest Avenue, Decatur, Illinois 62522. This OM, well known in various circles for his efforts as the Exec. Editor of the MDXSWBC, is 16 and in highschool; Is currently a member of NNRC, NRC, FSDXC and ASWLC. Dave lists writing, speleology (study of caves), outdoor life, reading, music and cars as other hobbies/interests in excess of SWLing/DXing. (Ever do any "listening" in a cave OM?) Gear is made up of a Hammarlund HQ-180C, Knight R-100, Zenith T/O. Antennae are Mosley SWL- and RD-5, 15' longwire (indoor). Dave hopes to add a freq meter, tape recorder and preselector to his equipment list soon. Give Danny Dannels and, as Dave puts it, "various DX publications" credit for his joining NASA.
