Williamsville, New York

Dear Sir:

We were very happy to hear from you and to know that you are interested in having our station broadcast a special program for your club. We shall be very happy to grant this request Sunday March 26th between the hours of 11:00 and midnight, Pacific Standard Time.

Sunday night, March 5th, we will dedicate some special numbers to your club and announce this broadcast for three weeks later. We can tell all those who are listening in to tell their friends, and in this way and with your co-operation, we hope to have a large listening audience.

Irving R. Potts, President of the NEWARK NEWS RADIO CLUB, wrote us a letter for verification and so we have just written him about this special program and asking his co-operation. (Told him you suggested it).

Many of your club members have written us and we have always been very happy to hear from them. You might suggest that for this special broadcast those listening in may write us here enclosing 3¢ stamp for verification, or 5¢ if they desire an EKKO stamp. We had thought we were out of them, but several hundred were found in another department when they were cleaning.

Praying God's richest blessings upon you all,

I am yours for better broadcasts,

Chas Wm Walkem

Sr. J.W. Brauner.-
Williamsville. N.Y.
17 East, Spring St.
U.S.A.

Mi estimado señor y amigo:-

He recibido su carta fecha 15 de los corrientes, y no tengo palabras con que expresarle mi alegría por lo completo de su informe.-

Le remito el sello de verificación de esta planta, debidamente firmado por mi, para confirmar la verdad que Ud. ha escuchado.

Tengo realmente gran admiración por su receptor y un gran concepto de sus observaciones sobre esa transmisión.

A las 3:40, el microfono del anunciador empezó a fallar y el operador tardó unos 25 segundos en hacer arreglos; pero en conjunto los amplificadores no trabajaban muy bien, debido a la HUELGA de las plantas Electricas provocada por los Administradores, que nos dejó sin fluido durante muchas horas y los acumuladores se nos descargaron. Así todo cumplimos con Uds, transmitiendoles el programa ofrecido.

El programa fue combinado con musica Americana y de Cuba, para todos los gustos y dedicamos algunos numeros musicales a los amigos de ese gran pais.-

Probablemente en la proxima semana transmitiré varias noches desde la 1 a las 2 AM, para dedicar algunas selecciones musicales y para Ud, serán varias.

Reciba las gracias mas expresivas por todo cuantos detalles me ha suministrado y recuerde siempre que piense en Cuba, a este amigo que desea conocerlo personalmente.

Muchas felicidades para Ud. y todos los amigos del NEWARK NEWS RADIO CLUB y sabe puede mandar en lo que guste a su aftmo amigo y s.s.

Dear Radio friend:

In answer to your letter of the 9th., we are sorry not to have been able to answer it at an earlier date, but we have received hundreds of letters from each of these tests, making it impossible to answer them as promptly as we would like to. Among these many letters we also received and answered one from Mr. Robert N. Hoffmann, one of your members, we also sent him our verification stamp. Last year we received a letter from Mr. Hoffmann's brother who, as I see by your letter-head, is also a member of your Club, lacking only Mr. J. Jerome Kurtz's letter of verification proving that we have been heard by all of your members, as I see by your letter that this Club is composed of but four.

We have exhausted our supply of Ekko stamps so I am very sorry to say we can not send you one in this letter but we have ordered a large supply and will send you yours as soon as we receive them.

We are broadcasting a special program for the benefit of our listeners in the U.S. and Canada every Sunday morning from Saturday midnight until 3 a.m. and we hope that "The Old-Timers Club" continue to hear and enjoy these programs, any reports will be greatly appreciated by us.

Thanking you once again for your attentive letter, I am,

Yours very truly,

F. A. Lavín

At the moment of closing your letter we receive our Ekko stamps and are very glad to be able to send yours.

Dear Radio Friend:

It is with sincere thanks we wish to acknowledge your kind communication relative to the reception of WIOD, Wonderful Isle of Dreams, Miami Beach, Florida. We also wish to acknowledge receipt of your ten cents remittance for a WIOD EKKO verification stamp, which we are herein enclosing, together with a folder illustrating Station WIOD, and the program on the reverse side of this letter will, no doubt, also be of interest to you.

Station WIOD is the finest station in the far South, not only as to investment involved, but as to its beautiful and efficient island location, which bears out in truth its slogan, "WONDERFUL ISLE OF DREAMS"

A magnificent radio building houses Station WIOD and includes a studio which compares favorably with that of any station in the United States.

Station WIOD represents the entire State of Florida and operates a complete net work, embracing all of Miami Beach, extending into Miami, and as far as Hollywood, Fla. - twenty-six miles distant.

We count upon you as our radio friend and trust we may have the pleasure of hearing from you again.

Very truly yours,

JACKSONVILLE is located on the St. Johns River, which empties into the Atlantic Ocean with a channel of 30 feet at the bar and is navigable for 200 miles into the heart of Florida.

Jacksonville is served by 5 trunk line railroads; 144 passenger trains from all parts of the country enter and leave daily. Its steamship service extends to the ports of the world; owns and operates its municipal docks. Has over 400 manufacturing plants with an annual production output of \$100,000,000.

Jacksonville is a terminus for the Dixie Highway, the Atlantic Coastal Highway and the National Highway. It is the hub of Florida's good roads system.

Jacksonville has 365 recreational and industrial days in every year.

Jacksonville has the finest driving and bathing beach in the world. It is 30 miles long and 600 feet wide at low tide. It is as smooth as velvet and hard as concrete. A 32-foot concrete boulevard, electrically lighted, joins Jacksonville and its beach.

Jacksonville is the largest lumber market from Maine to Texas.

It is one of the largest naval stores ports in the world.

Jacksonville is a city of beautiful homes, colorful parks and supervised playgrounds, a city where myriad flowers bloom the year 'round. Five of the finest 18-hole golf links in the State.

Jacksonville's schools and churches are second to none in the South.

The largest automobile manufacturers in the world choose Jacksonville for their South-eastern distribution headquarters and assembly plants.

Jacksonville has a rich back country which is especially attractive to specialized agriculturists.

Jacksonville has many public-owned utilities. Its municipal electric plant, in addition to furnishing cheaper power and domestic rates than any plant in the United States, earns a net profit of over \$500,000 annually which goes toward the reduction of taxes.

Jacksonville has a cosmopolitan population, with every state in the Union well represented. Here they share a common happiness. It is AMERICA'S ideal city.

Dear Sir:

Going through the files here I ran accross a letter that you wrote in regards to a sign off which you thought might have been WMOC. Mr Botts whom was Station Mang. at that time answered your letter.

Seeing that you are in the club at Buffalo I thought that you might know an old friend. When I last heard from him he was leaving for overseas from Maxton, NC. His home was in Buffalo and he is a HAM. We were both Communications Officers at the said Base and I would like to get in contact with him. I don't know where he lived there but he worked around the pictures Shows before his Service. His name is E. J. ~~KKK~~ Pirung or ~~Perppg~~ Perung, First name Edwin. If you know of a such person please let me know.

Sounds like you have a nice rig there. I am not a Ham but think that I will go up soon, I am the Chief Engineer and did most all of the Engineering on the Station. At least I am still at it because the Console just got in last week. We were using a homemade one. D you kave a Telephone Ticket, If so what are you doing ? We will need a Engineer here in about three weeks. Small Town, 40 miles from Atlanta. In fact my home is in Atlanta and beside being Chief here I pull a remote for WGST(of Atl.) Here each morning.If you would like I will run a test here some morning about 4 am and at that time the chanel should be clear. So let me know. Like to hear from you again anyway.

LOCATED IN THE CENTER OF THE WORLD'S GREATEST
LEAD AND ZINC DISTRICT

August 22nd, 1929

J.W. Brauner,
17 E. Spring St.,
Williamsville, N.Y.

Dear Sir;-

We are in receipt of your letter relative to reception of our station on January 21st and are very glad to verify your reception of our program.

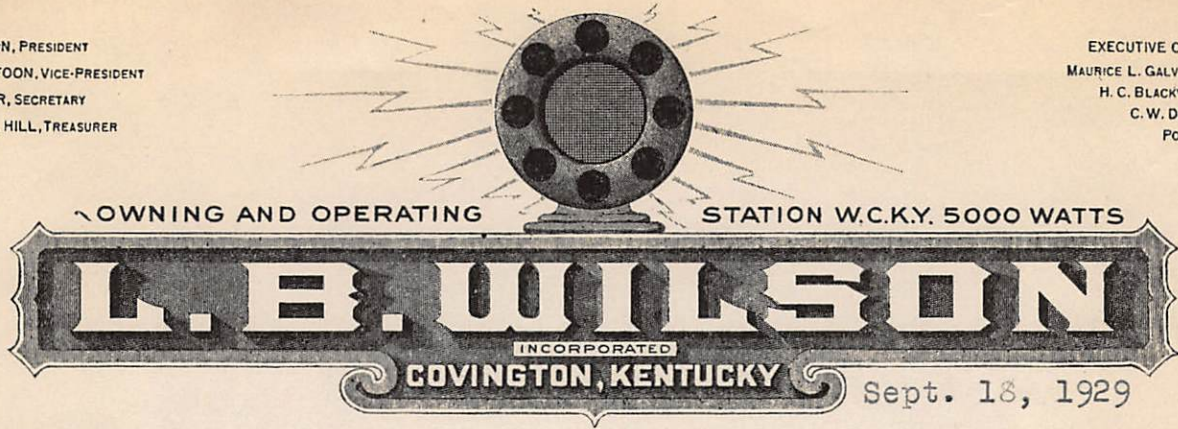

KGCF is located in the heart of the world's largest lead and zinc field. It is dedicated to Zinc and it is our purpose to place Zinc products before our listeners. We are attempting to do this in a most pleasing way by offering to our listeners the best talent in this entire district. We are on the air each evening from six to eleven, Central standard time. We shall be glad to hear from you again at any time

Very truly yours,

Williamsville, N. Y.

Dear Mr. Brauner:-

Thank you for your letter of the 24th. I did not verify your reception as I knew that you had both a card and a stamp. However if you want a letter of verification I will be glad to send you one.

I have been corresponding with several Mexican and Canadian stations but so far I have'nt made any progress. They do not have regular frequency checking schedules but from what I gather they will be put on regular schedules soon. And when they are their schedules will come to me by wire. That is if the proposed club goes over. Yes I am going to mail out frequency checking schedules. There will be around twelve mailings per month so you see that it will be impossible for me to render the service for less than the 1\$. However if I get by with less than that and I am certainly going to ~~try~~ try I will make a little money for my troubles. You know with buying the schedules from each district and paying for their copying it is going to come a little high.

You stated that you did not have a verification from WTSL. I do not have any record of them changing their call letters but they have changed ownership. I understand that they are putting in some new equipment and if I get advance dope on their test program I will drop you a line.

Cordially yours,

Dear radio friend:

We thank you very much for the fine technical report we received from you on the recent program which we dedicated to the members of the Newark News Radio Club.

We are glad you enjoyed the program so much and we trust we will be able to repeat the same kind of program next winter.

It is seldom that we get a report that is so informative and complete as your report was. We appreciate your kindness in reporting in spite of the fact that you already have a verification from our station.

Thanking you again for your kindness and trusting we may have the pleasure of another such report at some future date all of us at WCAO, "The Voice of Baltimore" wish you luck.

Sincerely yours,

J.Thos. Lyons, Exec.Vice Pres.

Dear Sir:

We are pleased indeed to comply with your request, directed to the Chamber of Commerce, this city, under date of December 9, which was turned over to us to handle. The correct call-letter is WBIG. We operate under Federal Radio Assignment, frequency of 1440 kilocycles. Our broadcasting hours are from 7:30 AM, 9:30 AM; 12:00 to 2:30 PM and 5:00 until 10:30 PM week days, and Sunday, 11:00 until 2:00 and 8:00 until 10:00 o'clock. We thoroughly agree with you with reference to what you have to say on the announcer making mention of interesting points about our city. Also the kind of weather we are having, for which we thank you very much.

We are sorry that this answer to your communication is so late, but, better late than never, and we trust that you are enjoying the season's festivities to the fullest extent, and wish for you a very happy New Year.

Department of Radio
EDWIN M. SPENCE
Director

Atlantic City Municipal Radio Station

W P G

World's Play Ground

1100 Kilocycles

Wave Length 272.6 Meters

Atlantic City, New Jersey

Dear Radio Friend:

The traditional- yet hearty "Letter from Home" seldom is received with more pleasure by a distant one than was your welcome message to us. It may interest you to add the enclosed verification card to your collection of radio reception souvenirs, and we trust you will find much to please you on the enclosed advance schedule.

WPG Marine Studio, our summer headquarters, located a half mile out over the Atlantic Ocean on the Steel Pier, daily attracts thousands of radio friends among whom we trust you will soon be welcomed. The Studio is unique and picturesque this season, with its gang plank, life boats, life buoys, ship's bells, clock compass, flags, lights, rails, etc., creating the atmosphere of a luxurious yacht at sea. Here, before the microphone, our chief announcer, "Captain" Norman Brokenshire, presents the artists to the great entertainment of visitors who enjoy a glimpse behind the scenes of our broadcasting studio.

WPG is now operating on its new frequency, 1100 kilocycles, and we are desirous of knowing how you receive our new position on the dials. Is reception better than formerly? It will be a great assistance to Director of Radio, Edwin M. Spence, if you communicate with us regarding this, and for your convenience a form is enclosed. Kindly fill this in and return it to us.

If you cannot arrange to see the 1927 Annual Beauty Pageant be sure to tune in WPG at that time if you enjoy novel broadcasts.

If you wish one of our illustrated station booklets, Marine Studio views, and a photograph of Mr. Brokenshire we shall be happy to comply with your request.

Thanking you for your cooperation, and hoping that you will call at Marine Studio in the near future, we are

Cordially yours,

1931

Mr. J. W. Brauner,
17 Spring Street,
Williamsville, N. Y.

Dear Sir:

Thank you for your letter of January 31st reporting reception of our program on the morning of that date.

We have had three or four other letters of reception from New York state, but yours was the most interesting, and kindly consider this letter as your verification of reception.

We are glad to know that KGGM with its 250 watts of power maintained its quality and that it's modulation was so good, also that there was no variation.

Thanks for the remark about the announcer as it was the writer who was announcing the program.

When next we have a DX program we will be glad to drop you a card long enough in advance so that you may again try for us if you so desire.

Thanking you for your letter, and with best wishes, we are

Very truly yours,

The New Mexico Broadcasting Co.

214.2 Meters-----1400 Kilocycles-----500 Watts

J. W. Brauner
17 E. Spring St.
Williamsville, N. Y.

Dear Sir:

Your letter dated Dec. 31 on hand.

Re WFWV call letters:

This station first organized eight years ago maintained the call letters WSGH. Four years later the call letters were changed to WFOX. On Oct. 25, 1933, WFOX applied to the Federal Radio Commission for permission to use WFWV call letters. Permission granted, same were used for a few weeks, when the Veterans of Foreign Wars suggested that we change them to WFW, which we maintain at the present time.

Re report of reception on November 1, 1933:

WFWV call letters were in use at that time. Remainder of report is verified hereby.

WFW wishes to take the opportunity at this time to thank you for the interest you have taken, and wishes the best of luck to you and the members of the Newark News Radio Club.

Sincerely

Evangelist

JOHN W. SPROUL

(I)
"DIVINE HEALING
TODAY"

(II)
"THE GLORY BARN
GOSPEL"

(III)
"JOHN W. SPROUL
YEAR BOOK"

"Divine Healing Today" gives his life story, and nineteen sermons on Divine Healing. The medical corps of the United States Army confirms the truth of this—the most remarkable modern instance of God's Healing power. He was officially declared permanently, incurably incapacitated. Then he was instantaneously restored,—as attested by the mayor of Pittsburgh and many others.

This remarkable volume also contains an explanation of every Bible verse that teaches Divine Healing.

Ten thousand copies have been sold in the first weeks since this book was issued.

"The Glory Barn Gospel" contains Evangelist Sproul's best addresses on the Holy Spirit and the higher life. Every new convert, and every Christian who desires to 'grow in grace' should have this unique volume.

"John W. Sproul Year Book". This, latest and largest, of Evangelist Sproul's writings contains a carefully selected Bible passage, the couplet of one of the 'Glory Barn' hymns, and the very choicest selections from the world's wealth of devotional literature — for each day of the year. This volume was planned to guide the growing christian in his devotional life, and to assist those who wish to set up 'the family altar.'

GOODBYE McKEESPORT!

GOOD NEWS FOR RADIO FRIENDS!

May 12, 1928

Dear Co-worker:

You have been so faithful in sending in your words of appreciation, and gifts, throughout the long fourteen weeks of the McKeesport Glory Barn campaign, that we know we do not need to urge, when there is a need to be supplied! The "Good News" referred to above is the fact that there is a prospect that the radio station W.M.B.J. ("Where Many Believe Jesus") will NOT CLOSE, but keep right on shouting out the "Full Gospel" for soul and body, through the summer months!

We know you are eager to co-operate! We are also enclosing the little "FAREWELL LOVE OFFERING ENVELOPE" and the envelope in which to return it to the Glory Barn. CAN'T YOU BRING IT? Otherwise mail it promptly please!

Gratefully yours,

Sproul

Williamsville, N. Y.

Dear Mr. Brauner;

Many thanks for your very fine letter and report on your reception of our station on the evening of October 13th 1933 at 5:10 PM. EST.

Friday the thirteenth certainly was not an unlucky day for you was it? And for our station either.

We have been getting quite a bit of mail from listeners in and around New York and New Jersey also Philadelphia who pick up our station regularly but you are the first that has picked up our signal at that time of the day as far as the reports have come in.

I was at the controls at the transmitter on the day and time you received us so there was no need to check the log. Your report is correct in every detail.

We have a new Western Electric 100 Watt transmitter and it certainly puts out a lovely signal. I received a letter from a fan up in Greenland almost up to the North Pole. He picked us up at 11:30 PM. EST. Claims signal was loud and clear. He gave me a very fine report.

I am enclosing an Ecco Stamp for you.

Again let me thank you for your letter and hope to hear from you again.

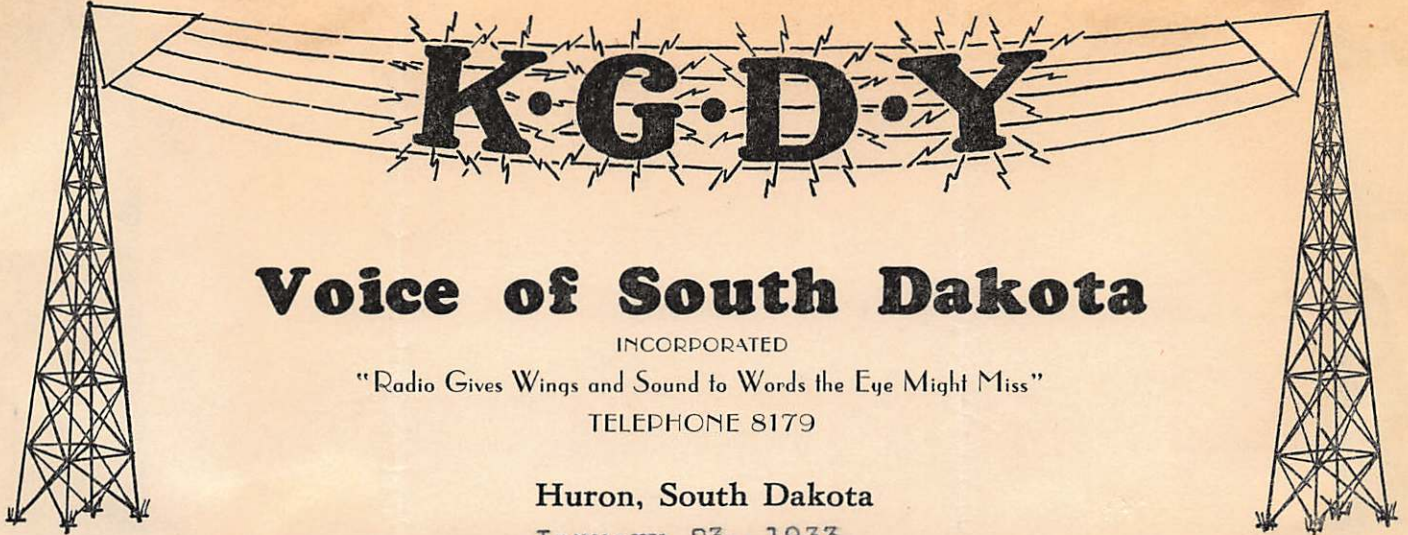

We wish to remain,

Very truly yours

Radio W.N.B.O.

Dear Mr. Brauner:

We acknowledge with gratitude your correspondence concerning our program and we wish to assure you that we are deeply appreciative of your comment. We hope to be able to bring you many happy hours in the future.

It is the aim of the Thrift Station to present only the highest type of entertainment and such as will be educational as well.

You will note on the reverse of this letter that we broadcast an early morning program which begins at 6:45 C.S.T. We will be glad to hear from you as to your reception of this particular period.

In addition to the enclosed individual stamp of our station we are mailing you under separate cover a souvenir which is known as "Everybody's Friend."

I wish to assure you again that we appreciate your kind message.

Yours very truly,

Walter N. Campbell

Mr. J. W. Brauner
23 Howard Avenue
Williamsville 21, N. Y.

Dear Mr. Brauner:

Thanks for your report on reception of KULP on the morning of March 4th. The very next thing I want to do is apologize for not answering the report you submitted last year. At the time, there was a lot to keep me busy so my assistant answered many of the reports and failed to initial the ones that had been verified. Therefore, a few failed to receive their verification. I checked through the files and found all your previous reports. We were on at the time you reported but could not link anything definite with your report. Your present report checks with our log so please accept this as your verification.

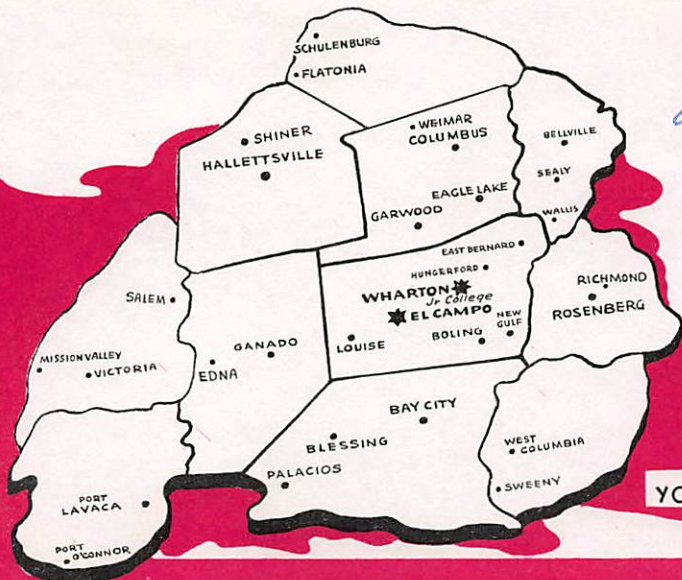

The equipment here is essentially Collins with Presto turntables and General Radio monitors. The transmitter is a Collins 20T and is series-fed to a guyed, vertical antenna 200 feet high overall. The weather here was clear with a temperature of about sixty degrees at the time of the broadcast.

Thanks again for the report and "happy DXing!"

Very truly yours

Joe H. Miller

Dear Sir:-

We are very sorry indeed that you have not received your verification and Ekko Stamp promptly, but this was due entirely to the many thousands of similar letters received at our office. We had no idea when we started our new broadcasting station that we would have so many listeners. We have on hand in our office at present 18,000 letters not answered.

We are glad to know that you only live a few miles from Buffalo, and that you visit Canada frequently, and we are exceptionally pleased that you are familiar with our products. Sometime when you are visting Canada and have an hour to spare would be pleased to have you call at our plant in St.Catharines, when we will try and make you at home, at least we can reason together.

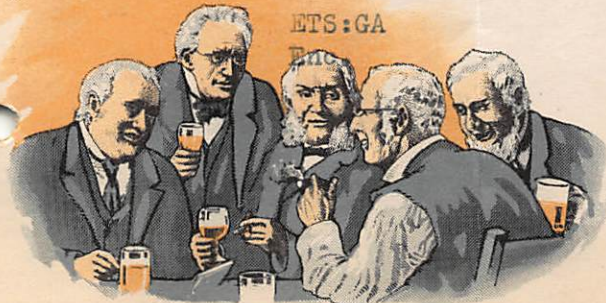

We have much pleasure enclosing you an Ekko Stamp accompanied with Verification card.

Yours very truly,

Mr. J. W. Brauner.
17 East Spring St.
Williamsville
New York.
USA.

Feb. 28. 34.

Dear Mr. Brauner:-

I find no difficulty at all in being able to Officially Verify your report on reception of CFQC. on Feb. 24th. at 2.04.am.MST.

You give us no less than nine correct numbers, announcements etc.

Every word of this program was closely recorded, in case we would have to refer minutely to the log, therefore, I had but little difficulty in checking your report, and found it correct.

Please accept this letter as an Official Veri, and I am more pleased than I can tell, to be able to do it.

I imagine your location must be the worlds worst for Saskatchewan stations, as I have had many reports from nearly every state in the Union, including three from New Jersey.

Ninety per cent of the reports state that our signals came in fine, the average signal strength being R7 -8, and to our gratification and surprise, most of the reports were exceedingly comprehensive. One from West Virginia and another from New Jersey, gave us practically every number and announcement made correctly.

Radio is a strange and wonderful thing, and all apparently depends on the particular location of the receiver. The power of the receiver seems to mean nothing. One chap in Greenville Pa. gave four numbers rating us at R4, saying that he heard us with difficulty, and using a Scott I2 tube outfit, whereas another fellow, also in Greenville Pa, using a four tube custom built set, gives us the whole program, word for word, at R8 - 9. What can you make of such results?

No other reports mentioned any particular weakening of our signals, from 2.30. on!

Thanking you once again for your report.

Yours very Sincerely, and thanks for the

Boquets, Hi.

Charles Hesterway
