AMATEUR RADIO LICENCE OF THE REPUBLIC OF BOUGAINVILLE LICENCE NO 1

ISSUED 14th January, 1992

The Interim Government of Bougainville which declared independence on 17th May, 1990 and is the sole authority in control of the Republic of Bougainville hereby grants Amateur Radio Operating permission to **Sam Voron 2 Griffith Av, Roseville NSW AUSTRALIA. 2069**

This person has shown proof of AUSTRALIAN Amateur Radio qualification and call sign VK2BVS issued by the AUSTRALIAN Government. This qualification is recognised and the following licence conditions apply.

CALL SIGN - C1A

- Frequency Bands - Very Low Frequency (KHz) 0 to 8
- Low Frequency (KHz) 100 to 200
- Medium Frequency (KHz) 1.6 to 2.0
- High Frequency (MHz) 3.5 to 4.0, 7.0 to 7.3, 10.1 to 10.15, 14.0 to 14.35, 18.068 to 18.168, 21.0 to 21.45, 24.89 to 24.990, 26.4 to 29.7.
- Very High Frequency (MHz) 30 to 56, 70 to 73, 144 to 148, 220 to 225
- Ultra High Frequency (MHz) 420 to 450, 550 to 650, 900 to 920.

All frequencies above 1000MHz on a non-interference basis. All frequencies above 250,000MHz

- Regulations - Any mode of Transmission is permitted throughout the Republic of Bougainville.
- Power Level Shall not exceed 10kilowatts output mean carrier power or 10kw peak power for SSB.
- All transmissions must be identified at least every 10 minutes.
- Any person may operate the station as long as he or she is under the control and in the presence of the licenced radio operator.
- The purpose of the Amateur radio licence is to allow humanitarian assistance through the internationally recognised non political, non religious, non commercial United Nations instituted amateur radio frequencies. Humanitarian assistance through the efforts of HAM (Helping All Mankind) radio operators within their communities, in developing or emergency areas and from around the world is permitted, technical experimentation, research and education of the youth in languages, geography, international friendship and electronics through using amateur radio as an educational tool in schools is permitted. These will be known as amateur radio club stations.
- The passing of third party non commercial messages and messages which do not facilitate the business of an individual or organisation is permitted. This will normally be messages of a personal nature or messages relating to providing emergency assistance to the people. Any message sent must be free of charge. No compensation in the form of money or in any other way maybe accepted by an amateur radio licence. Because of this unique volunteer service the Bougainville Government undertakes that such licencees cannot face legal actions of any kind regarding the eventual delivery or accuracy of any messages sent through such stations.

- This licence remains current indefinitely unless cancelled by the Government of the Republic of Bougainville.

To ensure that the people of Bougainville are never again without communications and to recognise that the basic human right to use radio waves is as God given to every person as is the air we breath and the water we drink, provision is now made to increase the awareness of this basic human right among the people and knowledge of the technology to use it by assigning additional frequencies to all Amateur Radio Licences permitting some existing and future amateur radio operations to be easily received by the general public.

Radio Amateurs are hereby permitted to operate their own personel hobby radio broadcasting station simply for the pleasure of operating and experimenting with radio broadcasting technology.

Broadcasting of all types of programme material using music, voice and data is permitted provided;-

- (1) It is on a non commercial voluntary hobby basis and no one is being compensated in the form of money or any other way.
- (2) It is not done to facilitate the business of any individual or organisation.
- (3) That no commercial, religious or political advertising be transmitted.
- (4) That it be done on a non interference basis.
- (5) That it be confined to the following frequency bands.

1.5 to 1.8 MHz
3.850 to 4.000MHz
7.100 to 7.500MHz
21.450 to 21.500MHz
26.960 to 27.410MHz
88 to 108MHz
476.420 to 477.405MHz

- (6) Television broadcasts may be conducted on any unoccupied standard VHF or UHF television channel on an identical basis.

Radio Amateur may intercommunicate with other radio amateurs and with citizen band operators. During emergency communications is allowed with any radio service on any frequency.

The Amateur radio licence conditions will apply when an amateur radio operator uses the frequencies assigned to the no licence required 2 way citizen radio service frequencies of 26.960 to 27.410MHz and 476.450 to 477.410MHz. Those without an amateur radio licence must use 40 channel or less channelised CB type transceivers and power shall be limited to 100 watt output in any mode.

Authorised by:-

.....
Secretary of State
for the Republic of Bougainville and on behalf of the
Communication Minister for the Republic of Bougainville.

Kenosha, Wisconsin, USA

Monsieur,

Nous nous excusons de pouvoir vous répondre un peu en retard.
Nous vous remercions beaucoup des nouvelles sur les conditions d'écoute de la " VOIX DU FUNK ". Votre communication nous encourage beaucoup et cela nous permet d'améliorer davantage les conditions d'écoute.

Malgré les difficultés, les conditions actuelles où les impérialistes américains qui sont tout autre que le peuple américain bombardent tous les jours le territoire du Cambodge, nous essayons toujours de satisfaire tous nos auditeurs, en particulier, nos auditeurs américains qui se trouvent très loin de notre pays.

Nous vous envoyons le nouveau programme de la " VOIX DU FUNK " .

1ère Emission :

23.30 - 0.30 GMT sur 25m (12006kcs), 30m (10090 kcs, 9988kcs),
40m (7020kcs) et 60m (5000kcs).

2ème Emission : (Emission spéciale).

0.30 - 1.30 GMT sur 25m (12006kcs), 30m (10090kcs + 9988kcs),
60m (5000kcs)

3ème Emission :

4.00 - 5.00 GMT sur 25m (12006kcs), 30m (10090kcs, 9988kcs),
60m (5000kcs).

4ème Emission :

11.30 - 12.30 GMT sur 25m (12006kcs), 30m (10090kcs, 9988kcs),
40m (7020 kcs), 60m (5000kcs).

5ème Emission :

14.30 - 15.30 GMT sur 25m (12006 kcs), 30m (10090kcs, 9988kcs)
60mm (5000kcs).

Date: JANUEARY 12, 1989

Dear Mr. JERRY BERG ,

Thank you very much for your letter about our VOK transmissions, which has been passed on to us by our office in Bangkok. It sometimes takes a long time for letters to reach us, so we would like to apologise for any delay in replying. We are pleased to enclose our QSL card which verifies your report.

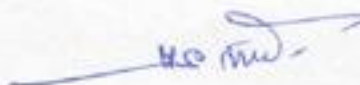

VOK (which is called "Samleing Khmer" in the Khmer language) literally means "The Voice of All Khmer People". We are the station of the non-Communist resistance, fighting for the liberation of our Country from both the Vietnamese and from Communism. We are sorry we cannot reveal the location or the power of our station, but we are still fighting a war, and our enemies would try to destroy us if they knew where we are.

You might be interested to know that we have an international music programme every Saturday at 1300 hours (Khmer time). If you are able to send us some ethnic music on cassette from your country, we would be pleased to play it and read out your name. If the song is not in English, it would be helpful if you could tell us its meaning, because our objective is to explain to Cambodian children, who have been cut off from the outside world for so many years, about the culture and traditions of countries in the Free World.

Another thing that would be helpful is if you know of any Khmer people in your country. We would like them to contact us, especially if they are trying to locate missing relatives or friends. As our name suggests, we consider our station to be the property of all Khmers who believe in true freedom for our country, and we will help any Khmer who asks us, regardless of his creed or political affiliations.

Thank you again for your letter and your kind words. It is our great hope, to which we have all dedicated our lives, that soon you will be able to hear us broadcasting from our Capital, Phnom Penh, as free men and women.

Yours sincerely,

pp The VOK Team

Jerry Berg
38 Eastern Ave.
Lexington, Massachusetts 02173
3-8-91

Dear Jerry:

I have received your letter and recording. To my amazement, I indeed found that your recording was our broadcast to China! We have received several recordings, but none of them were proved to be our broadcast, so, yours is the first one recorded in the USA. The way we operate is to send our tapes through express mail to an island close to China. From that Island, our program is transmitted through very powerful transmitters in a focused beam to Beijing. Therefore, it is not easy to catch our signals outside China.

Yes, we have to stop our operation because of financial shortage. However, I am trying to contact other prodemocracy organizations of Chinese to see if any one of them could take over this operation. I should say it is hopeful. We do not have verification cards. Hope this letter can serve the purpose.

I heard about your hometown, Lexington, long before I came to study in the USA in 1985. I passed it in 1989 on my trip to the South of USA. Thank you for your interests in our program. I believe we have millions of listeners in China.

Sincerely,

Sanyuan Li
Director of the Voice of June Fourth

中國之音

VOICE OF CHINA

Mr. Bangtai Xu, P.O. Box 11663, Berkeley, CA 94701

April 12, 1992

Dear Mr. Jerry Berg:

We are so glad to receive your letter of March 1, 1992. We would like to thank you for your concern about our radio station. Your persistent pursuit of your hobby ever since 1958 is indeed very impressive to us. And your self-introduction is so informative that it will facilitate the further development of friendship between you and us.

Frankly speaking, we know very little about the technique of short wave broadcast. We are a group of overseas Chinese, most of us students. We have a dream that some day in the future China will be democratized and people there will enjoy basic human rights, not only the right to survival as the Chinese Communist Party purposely distorts the essence of the concept. This dream inspires us to make some substantial efforts towards its fulfillment. The establishment of Voice of China is one of many things that we are now doing to promote democracy in China. To some extent, Voice of China is to pick up the mission of the Voice of June 4th. However, strictly speaking, we have no organizational relations with it. Voice of China is independent of any existing political organizations and it is financially supported by the Foundation for China in the 21st Century, a non-profit unofficial organization registered in the United States. Because of the budget problems, Voice of China does not have its own broadcasting facilities. In an economical way, we just make the tapes and send them out to some area close to Mainland China, where several broadcasting stations are generously assign a regular period of time for the broadcasting of Voice of China. We are proud that, in this way, Voice of China has been working successfully over a year. Enclosed is some further information about it. We wish you would like to have it.

I wonder whether we can invite you as our technical adviser. Your expertise will be of great benefit to the further development of our station. If we are lucky enough to get your support, we are sure that we will be able more effectively disseminate new ideas to China. Your help will be a great blessing to China.

Since we know little about the shortwave hobby, we do not know whether this letter can be regarded as a letter of verification. And we also have no idea about QSL-card that you asked for. Please do not hesitate to inform us; it would be a great pleasure for us that we can do something to support your hobby.

Please pay our best regards to your wife and family!

Yours sincerely,

Bangtai Xu

Dear Sir:

This is to acknowledge with special thanks receipt of your letter regarding Radio "Sedaye Nejat Iran."

We are broadcasting every day from 03:30 to 05:25 and from 16:30 to 18:25 GMT on 19 meter band, 15555 KHz and 33meter band, 9027 KHz.

Radio Sedaye Nejat Iran is operated by The Front For The Liberation of Iran in opposition to the terrorist regime of Khomeini who is unlawfully ruling the ancient country of Iran.

We certainly appreciate your kind interest in our radio and will be indeed grateful to receive your comments and reports in the future.

With best regards,

Sincerely yours,

Nejat

Dear Listener: Mr. Berg;

Thank you for the reception report of April 5th, 2003 and your CD.
Your reception details were found to be correct so this letter will serve as verification.

The radio operates on 16 Meter with 17525 Khs/Mhz,
2 hours a day. (8:30 to 10:30 A.M. California, United States of America's Time)

The studio is in Beverly Hills, California and the transmitter site is in Mount Wilson.

Again, congratulations on your reception and thanks for the report. Good Listening.

Sincerely,

FOR 
Radio Sedaye Iran,
California, USA

April 19, 2004-04-19

Dear Mr. Jerry Berg:

This is to acknowledge receipt of your letter for which we are grateful.
Information you had provided was and is of great interest to Radio Pedar.

Some of you dear listners had referred to the previous frequency, 9740 kHz, which now is being changed to 17,735 or 17.90 meter, Though this new frequency is not very well received in Iran, we are still on this frequency and working with the broadcasting company provided us this frequency to change it to a more suitable one.

Please note that Radio Pedar is an affiliate of Channel One Teletion. Channel One TV, is a 24-hour, seven days per week satellite television organization, broadcasting in Persian (Farsi) to her audience in USA, Canada. Middle East. Iran, Persian Gulf, the continent of Europe and Australia.

One hour of this TV political talk show is broadcasted simultaneously on short-wave, Radio Pedar.

As you may know the language we are broadcasting is Farsi (Persian). Our broadcast time is from 10:30 through 11:30 A.M. Pacific Daylight Saving time.

We hope to extend our broadcast time to about three hours, as soon as we could solve the technical difficulties...

Thank you once more for your interest in Radio Pedar and the comments to sent us.

Looking forward to hearing from you again.

Sincerely,

Radio Pedar

Dear Sir,

We are glad to inform you of the receipt of your letter dated May 27th concerning our French language broadcast on May 23, 1970. Your report exactly corresponds to our characteristics

We would like to inform you that our French language broadcasts are released every day :

- at 3hrs (Indochina time) or 20hrs (GMT) in the 19 and 25 meter-bands (or on 15,050 and 12,000 kilocycles),
- at 5.30 hrs (Indochina time) in the 31 and 41 meter-bands (or 10,050, 9,920 and 7,400 kilocycles),
- and at 21 hrs (Indochina time) in the 25 and 31 meter-bands (or 9,920 and 12,000 kilocycles).

Our single broadcast in English (exclusively for GIs in South Viet-Nam) is released every day :

- at 5 hrs (Indochina time) in the 31 and 41 meter-bands (or on 10,050, 9,920 and 7,400 kilocycles),
- and at 21.30 hrs (Indochina time) in the 25 and 31 meter-bands (or 9,920 and 12,000 kilocycles).

We would be very grateful to you for following our broadcasts and introducing them to your friends and acquaintances and for letting us know your views and suggestions.

With our sincere thanks.

Yours truly,
LIBERATION RADIO.

Dear Mr. Jerry Berg,

Thank you for your communication of 01/26/01 telling us of the programming you received 01/26/01 at 9930 Khz, 12.29-13.00 UTC. Monitoring of our broadcasts is important for the technical information we receive, as well as for information about our audience. Additionally, the stories of our listeners augment dimension of our transmissions, putting a "face" at the leading end of the short wave.

As background, you should know that Que Huong Radio is a private Vietnamese Broadcasting Corporation mainly serving the Vietnamese American in the Northern California, United States since 1994. Que Huong Radio is the only 24 hour daily, all Vietnamese station outside Vietnam. We are broadcasting on 1120AM frequency.

Also, we have two one-hour programs sent daily to Vietnam on shortwave frequencies, as follows:

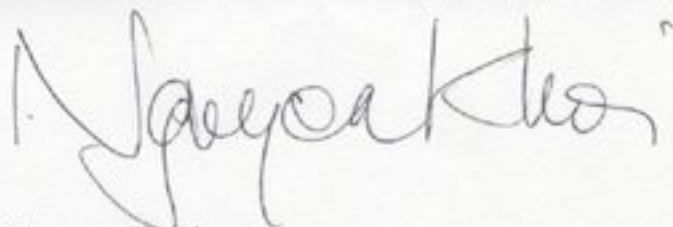

12.30-14.00 UTC at 9930 Khz

23.00-23.30 UTC at 17510 Khz

On shortwave programs which mainly broadcasted to Vietnam, we are trying to promote freedom and human rights for all Vietnamese people in Vietnam.

If you have any friend who is shortwave listener, please encourage him to send reception reports to us at above address. Reports can be in English and Vietnamese.

Again, thank you and enjoy your time on shortwave radio.

Nguyen Khoi
