ADDRESS

Los Angeles County, situated in Southern California, 150 miles north of the Mexican border, covers an area of 4,115 square miles and has a population of 2,206,864. It has 560,136 automobiles, or practically half of all the automobiles in California. For years it has led all counties of the nation in agricultural production. Last year its agricultural, horticultural and livestock production was valued at \$89,817,515. Its industrial production is valued at nearly \$1,275,000,000 annually, while its harbor handles yearly, cargoes totalling 23,067,365 tons, valued at \$804,014,311. It has an assessed valuation of \$2,994,866,907, based on 50 per cent of actual value. It is an ideal year 'round playground and Nature's workshop.

Have you seen the sand and sagebrush, while down the hills,
Along the draws the cooling shadows lay?
It's lonesome, and it's desolate, it's off the beaten track.
But once you've caught the lure of it, you're homesick
'til you're back, — In Wyoming.
