Some interesting letters received following the PCJ transmissions

Cape May N.J.U.S.A. MAY 3rd. 1929

Phillips Radio Co.
Eindhoven,
Holland.

Gentlemen:-

Thanks for the wonderful thrill from your station, which I received when I heard my name read out over the air among those named May 2nd. inst.

You have a very good announcer and without stating your STATION is a marvel.

Hoping to hear more of your good work, as we look forward for even better things from you, for we knew you are able to produce many surprises from your "Station-Superior"

Very truly yours,

J. Woodruff Eldredge.

Hartford, Conn. April 23, 1929.

Dear Sirs: I am pleased to say that I enjoyed your special Short American program here tonight. Your station came in very well on a four valve short wave receiver, the volume exceeding that of short wave transmissions in the United States. I was able to place the former at one distance from the latter and still hear the musical numbers. I first heard classical numbers, followed by hits from the popular musical productions of a few years back "Sonnyven lane", "Oh Kay", and "the Girl Friend", the time of reception of these places here was from approximately 8 to 8:30 P.M.-M.S.T. I hope you will have more broadcasts of this type, as I really enjoyed that portion which I heard. This is not the first time I have heard you but I thought this program such a delightful one that I thought a reception was deserving of a letter. Hoping to hear you again on the air, I shall stand by with my receiving set.

Very truly yours,
John J. Gaffney

Station PCJ
Eindhoven, Holland.

Dear Sirs: April 13, 1929 at 6:40 PM eastern standard time (E.S.A.) I tuned your station. The program I heard consisted of orchestral and vocal selections. I heard a vocal solo by a woman; the announcer would talk in English and english. He announcer also said something about the address but I couldnot understand what he said in reil. He stated you would talk in Dutch and he announcer also said something about the address but I couldnot understand what he said in reil. He stated you would talk in Dutch and english. He
