Worldwide, Inc.**

PROJECT ----- DXing WORLDWIDE

For over three years Radio New York Worldwide has produced and broadcast DXing Worldwide. A program designed by and for the international radio listener - that special individual whose ranks has been growing by tens of thousands to its present exciting unknown potential.

DXing Worldwide, a special 'breed' of radio news/entertainment program broadcast twice weekly by Radio New York Worldwide to listeners in Western Europe, Africa and Latin America.

From New York City, communications capital of the world, DXing Worldwide compiles features on what's "news" in international radio, new product developments, 'tech' tips on electronics, from microphones..how to build antennas..how to-almost anything of topical interest technically.

DXing Worldwide, produced by Irwin Belofsky & hosted by Steve Grayson, is broadcast by Radio New York Worldwide, the only international commercial station in the United States, on Saturday at 6:07EST/2307 GMT on 15.440 and 6.015 MHz and again on Sunday at 11:07EST/1607GMT on 17.845, 15.440 and 17.730 MHz.
